Beresford Creek Bridge Replacement Project to Begin Aug. 15

Charleston, S.C.—Work will begin Monday, August 15 to replace the aging Beresford Creek Bridge on Daniel Island. During construction, which is expected to last 9 months, Daniel Island Drive will be closed at Beresford Creek, and vehicular traffic will be re-routed in the following directions [route map attached]:

- Residents living to the west of the project area will be routed to Clements Ferry Road
- Residents living to the east will be routed to Seven Farms Road and River Landing Drive

When completed, the new Beresford Creek Bridge will allow for un-restricted vehicle access and feature an 8-foot-wide multi-use path, designed to strengthen bike and pedestrian connectivity along the Daniel Island Drive Corridor.

Charleston Mayor John Tecklenburg said, “The bridge over Beresford Creek provides an important connection for Daniel Island residents, and this new and improved structure – with added bike and pedestrian access – is exactly the kind of quality of life improvement that we’re committed to making for our residents on Daniel Island, Johns Island and everywhere in between.”
