

## 2023 DIPA Board Candidates

Pete Harper  
Pagett Street

I have been a resident of Daniel Island since 2003 and living in Daniel Island Park since 2006. I moved to Daniel Island to work for a commercial real estate company building the Publix center where I did much of the original leasing and development of the center. I am currently a principal with Lee & Associates brokering office, retail and land transactions. I am married to Lee Harper for almost 30 years (!) and have two children that grew up on Daniel Island and are now college graduates making a living on their own giving me more time to volunteer and help in our community.

During my 20+ years on Daniel Island I have seen it grow from about 2,500 residents to its current size of +/-20,000. During that time, I have been an active member and past president of the Daniel Island Business Association and am now a member of the grant committee for the Daniel Island Community Fund. As with my commercial real estate knowledge of the island, I am very familiar with the residential growth, including apartments, and am aware of all developments underway and in the pipeline. I would be proud to continue to serve Daniel Island in a capacity that benefits all residents and businesses.
